** MII BEAUTY TIP **

The latest statistics say that one in two New Zealanders will develop some form of skin cancer throughout their lifetime! So wearing a protective sunscreen is something we should all take very seriously. Regular use of a good quality sunscreen can also help to prevent wrinkles, pigmentation and a range of sun damage that accelerates the ageing process. Remember your skin is with you for life—so it's best you look after it properly!

We recommend the SkincareRX Organic Sunscreen \$65 or Coola Sunscreens Tinted or Untinted. \$55
